PROFESSIONAL SUMMARY

DevOps and Platform Engineer with extensive experience building and maintaining Docker-based infrastructure, CI/CD pipelines, deployment automation workflows, and scalable Linux production environments.

Strong background in enterprise platform engineering, infrastructure reliability, containerized environments, deployment stabilization, and automation of development and production workflows.

Experienced in supporting enterprise CMS systems, publishing platforms, e-commerce solutions, and high-traffic web infrastructure for international clients.

Participated in development, modernization, and infrastructure support of 40+ TYPO3-based enterprise platforms and web systems.

CORE COMPETENCIES

- Docker infrastructure
- CI/CD automation (GitLab CI/CD)
- Linux server administration
- Infrastructure automation
- Deployment workflows
- Nginx / Apache / PHP-FPM
- Production infrastructure support
- Platform engineering
- Infrastructure reliability
- DevOps workflows
- Performance optimization
- Monitoring & deployment stabilization
- API integrations
- Containerized development environments

PROFESSIONAL EXPERIENCE

DevOps Engineer / Platform Engineer

pr-TYPO3.com · Self-employed
Apr 2017 – Present · Remote

Development and maintenance of Docker-based infrastructure, CI/CD pipelines, deployment automation systems, and Linux production environments for enterprise CMS platforms, publishing systems, and e-commerce solutions.

Key responsibilities:
- Docker-based development and production infrastructure
- GitLab CI/CD automation
- Deployment pipeline implementation
- Linux server administration
- Infrastructure stabilization and monitoring
- Nginx / Apache / PHP-FPM configuration

• Performance optimization and Core Web Vitals improvements
• Production deployment support
• API integration workflows
• Infrastructure support for TYPO3 and e-commerce systems

Selected projects included enterprise publishing systems, scalable CMS platforms, access management systems, and Docker-based production infrastructure.

MOM.TRAVEL Dockerized TYPO3 & E-Commerce Platform	• Docker infrastructure • CI/CD pipelines • PayPal Checkout integration • Automated publishing workflows • Production deployment support
aerosolverband.de Enterprise Access Infrastructure	• Role-based access management • Secured document delivery workflows • Infrastructure automation • Deployment stabilization
musikundbuehne.de TYPO3 Platform Migration & DevOps Enablement	• TYPO3 v7 → v11 migration with production stability focus • GitLab CI/CD pipelines for automated deployment workflows • Server-side deployment automation and release processes • Database optimization for large-scale content structures • Performance and stability improvements for search and data-heavy features
Proliance.ai Enterprise Infrastructure & Deployment Automation	• Docker infrastructure • CI/CD automation • OAuth2 / SAML integrations • Enterprise deployment workflows • Production infrastructure support
GAGE.news Autonomous Publishing Infrastructure	• Automated content aggregation infrastructure • AJAX frontend architecture • Docker deployment workflows • Publishing automation systems
AlphaCleaningCompany.com Performance & Infrastructure Optimization	• Core Web Vitals optimization • GitLab CI/CD pipelines • Deployment automation • Web performance improvements

IT Analyst
DIVOMED LLC
May 2014 – Sep 2017 · Kyiv Region, Ukraine

Participated in development and modernization of digital business systems and technical infrastructure workflows.

IT Director
Palmira-Complex LTD
May 2011 – May 2014 · Donetsk Region, Ukraine

Managed digital infrastructure, technical operations, and web-based business systems.

IT Specialist
Beward Ltd
Aug 2008 – May 2011 · Donetsk Region, Ukraine

Worked on technical infrastructure solutions, web systems, and digital technologies including video surveillance systems.

Software Developer
Ingenico
Jun 2001 – Jul 2008 · Istanbul, Turkey

Worked on banking software development and payment processing infrastructure for POS-terminal systems in the Turkish banking sector.

EDUCATION

Donetsk National University (Ukraine)
Faculty of Mathematics — Applied Mathematics

Donetsk Institute of Law (Ukraine)
Department of Economic Law — Lawyer
